- if you have had TB in the past or have any other lung disease you should provide details of your previous screening and, if possible, your medical notes and x-ray results

## Attending the clinic

You should contact one of the approved clinics to book an appointment and make it clear you need the test for a UK visa application.

You can expect to get an appointment within a few days of your request. At busy times you may have to wait 10 days for an appointment, especially during the UK student visa peak season between June and September.

If you would like an appointment with a female clinician, please ask the clinic when you schedule your appointment.

If you need to cancel your appointment you should contact the clinic as soon as possible.

## Payment

The fee will be payable in Indonesian Rupiah at the exchange rate advised by the hospitals. You will pay the hospital directly for the cost of your TB test. The cost of the test is in addition to the visa application fee.

The test fee does not cover treatment if you have TB.
