Ethiopia	Namibia	Ukraine
Gabon*	Nepal	Uzbekistan
Gambia	Niger*	Vanuatu
Georgia	Nigeria	Vietnam
Ghana	North Korea	Zambia
		Zimbabwe

***get tested in another country**

Your test must be from a clinic approved by the Home Office and you will need to obtain an IOM medical certificate confirming that you are free from TB. We will not accept a TB test certificate from a clinic we have not approved.

You do not need a certificate if you:

- are a diplomatic passport holder travelling on official business or on a posting to the UK
- qualify for an exempt visa
- are applying for a certificate of entitlement

There are no approved clinics in Benin, so if you're from there, you'll need to travel to Nigeria to be tested.

Attending the clinic

You should contact the above approved clinic to book an appointment and make it clear that you need the test for a UK visa application. You can expect to get an appointment within a few days of your request.

At busy times you may have to wait 10 days for an appointment, especially during the UK student visa peak season between June and September.

If you would like an appointment with a female clinician, please inform the

clinic when you schedule your appointment.

If you need to cancel your appointment you should contact the clinic directly.

What you should bring with you

- proof of identification, which contains your photograph, preferably your passport
- proof of payment of the test fee
- UNHCR/MHA registration documents if you are a refugee applicant
- if you have had TB in the past or have any other lung disease you should provide details of your previous screening and, if possible, your medical notes and x-ray results

Payment

Payment should be made to the respective bank accounts through bank transfer. Please include your international passport number as the reference when making the transfer and bring the proof of payment (transfer receipt) when reporting for medical examination. Cash payment will not be accepted by the examining centre.

The cost of the test is in addition to the visa application fee.

The test fee does not cover treatment if you have TB.

Step-by-step procedures

- medical examination will be processed within 3 working days all visa applicants must attend the clinic for the assessment with all the required documents
- the initial examination will include a counselling session and signing a consent form
- applicants aged 10 and under will go through a medical examination by the physician before a certificate is issued
- applicants aged 11 and above will have a chest x-ray done; applicants will

then be reviewed by the doctor with the chest x-ray result before a certificate is issued

- additional sputum smears and cultures medical procedures may apply in case of abnormal chest x-ray findings and could take up to 8 weeks to get the final results
- a TB clearance certificate will be issued to the applicant on the day of the examination if the examination result is considered free of active pulmonary TB disease
- if you do not return within 7 days for sputum collection, you will not get a TB clearance certificate
- you will be given further testing or told to contact your own health care provider if the examination results are abnormal but the abnormality is not related to TB disease
- the TB clearance certificate expires 6 months from the chest x-ray date if you had a chest x-ray done, or 6 months from the physical examination date if you don't need a chest x-ray
- the TB clearance certificate is valid for 3 months if you have been in contact with a family member with active pulmonary TB
- female applicants may be requested to undergo a pregnancy test, in case there is uncertainty as to whether they may be pregnant
- pregnant applicants can decide not to get a chest x-ray examination and instead either give sputum for a TB test on 3 consecutive mornings or delay the TB screening until after giving birth

Read more information on [TB screening requirements \(https://www.gov.uk/government/publications/tuberculosis-tb-screening-for-the-uk-leaflet\)](https://www.gov.uk/government/publications/tuberculosis-tb-screening-for-the-uk-leaflet) for people applying for a UK visa in countries where TB is common.
