Gambia	Niger*	Vietnam
Georgia	Nigeria	Zambia
Ghana	North Korea	Zimbabwe

***get tested in another country**

Your test must be from a clinic approved by the Home Office and you will need to obtain an IOM medical certificate confirming that you are free from TB. We will not accept a TB test certificate from a clinic we have not approved.

You do not need a certificate if you:

- are a diplomatic passport holder travelling on official business or on a posting to the UK
- qualify for an exempt visa
- are applying for a certificate of entitlement

Approved clinic

Migration Health Assessment Centre

Plot 47
Bukoto Crescent Road
Naguru
Uganda

Telephone: +256 393 000 003

Mobile number: +256 770 300 360

Email: MHACuganda-inquiry@iom.int

Website: <https://uganda.iom.int> (<https://uganda.iom.int>)

Online registration: <http://register-uktb.iom.int/uktbdp-register> (<http://register-uktb.iom.int/uktbdp-register>)

Operating hours:

- Monday to Thursday, 8am to 1pm
- Friday, 8am to 10am

Closed on national holidays.

Attending the clinic

You should contact the clinic to book an appointment and make it clear you need the test for a UK visa application.

You can expect to get an appointment within a few days of your request. At busy times you may have to wait 10 days for an appointment, especially during the UK student visa peak season between July and October.

If you would like an appointment with a female clinician, please ask the clinic when you schedule your appointment.

If you need to cancel your appointment, please let the clinic know.

You'll be given a chest x-ray [to test for TB \(https://www.gov.uk/government/publications/tuberculosis-tb-screening-for-the-uk-leaflet\)](https://www.gov.uk/government/publications/tuberculosis-tb-screening-for-the-uk-leaflet). If the result of the x-ray is not clear, you may also be asked to give a sputum sample (phlegm coughed up from your lungs).

If your test shows that you do not have TB, you'll be given a certificate which is valid for 6 months from the date of your x-ray. Include this certificate with your UK visa application.

What you should bring with you

- valid Identification (Passport/OPM Refugee Asylum Seeker Card)
- 3 recent passport size photos (in colour with white background)
- if you have had TB in the past or have any other lung disease, you should provide details of your previous screening and, if possible, your medical notes and x-ray results

Test fees

11 years and above	Below 11 years
---------------------------	-----------------------

130 USD	60 USD
---------	--------

Payment

The fee can be paid in either US dollars (USD) or local currency (UGX) directly to Stanbic Bank Uganda (Forest mall Branch Only) using the below bank details.

7. You will receive a message from Stanbic bank with an L reference; share the L reference to mhdugandaadmin-finance@iom.int

Step-by-step procedures

- the medical examination will be processed on Monday to Friday from 8am
- all visa applicants must attend the clinic for the assessment with all the required documents

- the initial examination will include a counselling session and signing a consent form
- applicants aged 10 and under will go through a medical examination by the physician before a certificate is issued
- applicants aged 11 and above will have a chest x-ray done; applicants will then be reviewed by the doctor with the chest x-ray result before a certificate is issued
- additional sputum smears and cultures medical procedures may apply in case of abnormal chest x-ray findings and could take up to 8 weeks to get the final results
- a TB clearance certificate will be issued to the applicant on the day of the examination if the examination result is considered free of active pulmonary TB disease
- if you do not return within 7 days for sputum collection, you will not get a TB clearance certificate
- you will be given further testing or told to contact your own health care provider if the examination results are abnormal but the abnormality is not related to TB disease
- the TB clearance certificate expires 6 months from the chest x-ray date if you had a chest x-ray done, or 6 months from the physical examination date if you don't need a chest x-ray
- the TB clearance certificate is valid for 3 months if you have been in contact with a family member with active pulmonary TB
- female applicants may be requested to undergo a pregnancy test, in case there is uncertainty as to whether they may be pregnant
- pregnant applicants can decide not to get a chest x-ray examination and instead either give sputum for a TB test on 3 consecutive mornings or delay the TB screening until after giving birth
